

Ametalis Strengthens its Nordic Position – Welcomes Westberg and Natur og Samfunn to the Group, and Gains MVI as New Majority Owner

Ametalis acquires Westberg Vibrations- och Omgivningskontroll AB and Natur og Samfunn AS

Through these two acquisitions, Ametalis continues its work to build a leading Nordic platform for environmental and sustainability-focused services. In connection with these transactions, Ametalis was also acquired by **MVI**. With MVI as a strategic partner, we look forward to accelerating the group's growth - both organically and through further high-quality, expertise-driven acquisitions that create long-term value for society.

We warmly welcome **Westberg Vibrations- och Omgivningskontroll**, operating in Sweden, and **Natur og Samfunn**, based in Norway, to the group. Both companies will continue to operate under their existing brands and leadership, now with access to new resources, collaborations, and development opportunities within the Ametalis Group.

"We are delighted to welcome Westberg and Natur og Samfunn to Ametalis. Both are strong, entrepreneur-led companies with specialist expertise that aligns perfectly with our ambition to unite the Nordic region's leading environmental and sustainability professionals. With MVI as our new majority owner, we are now better equipped to grow faster and smarter - together."

– Kim Lehmusvuori, VD Ametalis

Broader Service Offering and Increased Geographic Reach

Envima, with its expertise in sustainable business development, environmental law, and management systems, has already been a part of the group. Now, the platform is further strengthened with two new additions:

- **Westberg Vibrations- och Omgivningskontroll** is a consultancy specializing in environmental impacts related to construction and infrastructure projects. Their services include vibration and noise measurement, risk analysis, property inspections, and water sampling - supporting clients across Sweden in managing environmental impact responsibly. Learn more at <https://www.westbergvo.se/>.
- **Natur og Samfunn** is a consultancy based in Trondheim, Norway, with field operations throughout the country. They provide services such as biodiversity assessments, environmental monitoring, impact assessments, and water-related analyses – serving as a key partner to municipalities, government agencies, and other stakeholders in environmentally focused planning processes. Learn more at <https://www.naturogsamfunn.no/>.

About MVI

MVI is a Swedish investment firm specializing in small and medium-sized growth companies across the Nordic region. With a strong network of entrepreneurs and business leaders, and a focus on value creation through active ownership, MVI is a committed partner for companies seeking long-term, sustainable growth. Learn more at <https://www.mvi.se/>.
